

Developing a Chatbot

Date	28 October 2022
Team ID	PNT2022TMID52517
Project Name	Smart Fashion Recommender Application

The image displays two screenshots of the IBM Watson Assistant interface, showing the configuration of a chatbot for a Smart Fashion Recommender Application.

Top Screenshot: Variables

The interface shows the 'Variables' tab. A table lists variables created by the user:

Name	Type	Initial value	Description	Variable ID
Address	Text Free text			Address
Name	Text Free text			Name
Pincode	Text Number			Pincode

Below the table, it indicates 'Showing 1-3 of 3 variables' and '1 of 1 pages'.

Bottom Screenshot: Actions

The interface shows the 'Actions' tab. A table lists actions created by the user:

Name	Last edited
I want to see the latest collections	8 minutes ago
I want to place order	5 minutes ago
Bye	4 minutes ago

Below the table, it indicates 'Showing 1-3 of 3 actions'.

A preview window on the right shows a chatbot conversation flow:

- Initial message: "Welcome, how can I assist you?"
- User input: "I want to see the latest collections"
- Bot response: "I want to see the latest collections recognized. Checkout out latest looks!"
- Image: A woman wearing a hat and sunglasses.
